

# JOSHUA BAMIDELE

+234 906 678 6039 - joshuabamidele219@gmail.com - github.com/Joshardals

## EDUCATION

Lagos State University  
Bachelor of Science in Computer Science

Expected: September 2025

- Relevant Coursework: Software Engineering Principles, Database Systems, Data Structures and Algorithms,
- Artificial Intelligence, Web Development.

## EXPERIENCE

Cruise Easy  
Frontend Developer  
Remote

September 2025 - Present

- Collaborating with UX designers to build a responsive, user-friendly car-rental platform interface based on figma designs.
- Building reusable components with Next Js, and Tailwind CSS to improve development speed and consistency.
- Integrating RESTful APIs from the backend team to deliver dynamic content and booking features.
- Designed and deployed the landing page, establishing the platform visual's foundation and brand identity.

Atoovis Technologies  
Frontend Developer Intern  
Remote

July 2024 - September 2024

- Built and integrated a dynamic category/subcategory system to improve product navigation.
- Collaborated with the backend team to consume APIs and implement new frontend features.
- Curated and optimized product images to enhance the platform's visual consistency.

## PROJECTS

### Student Hostel Finder System

Technologies: Next.js, Tailwind CSS, Supabase, Prisma, JWT, Pusher, Framer Motion

- Built a platform for students to search, filter, and compare verified off-campus hostels with scalable pagination.
- Developed a secure multi-role authentication system, enforcing data privacy and access control.
- Implemented a real-time chat system connecting students with verified landlords/agents, reducing response time by 40%.

### Client Invoice Management System

Technologies: Next.js, Tailwind CSS, MongoDB, Prisma, JWT, Framer Motion

- Built a platform allowing freelancers to track clients, invoices, and payment statuses efficiently.
- Implemented secure CRUD operations for clients and invoices with real-time dashboard stats.

### AI-Powered Recommendation System

Technologies: TensorFlow, Flask, D3.js

- Built a machine learning model to provide personalized product recommendations, increasing click-through rates by 25%.
- Integrated the model into a Flask web app with interactive visualizations using D3.js.

## TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, C++

Frameworks and Tools: React.js, Next.js, Framer Motion, Tailwind CSS, Node.js, Prisma, Supabase, PostgreSQL, MongoDB, Git

Concepts: Responsive Web Design, RESTful APIs, Authentication & Authorization, CRUD Operations, Agile Development
